SUMMARY

Master's student in Information Systems Management at Stanton University with a background in Business Administration. Highly analytical and detail-oriented, with hands-on experience in data analytics, project management, and business process optimization. Proficient in SQL, Python, machine learning, and data visualization. Strong problem-solving skills and a passion for leveraging technology to drive business decisions.

KEY COMPETENCIES

- **Data Analytics & Machine Learning:** Python (Pandas, NumPy, Scikit-Learn, TensorFlow), Time-Series Forecasting (LSTM, Random Forest), Financial Risk Analysis
 - **Data Visualization:** Matplotlib, Tableau, Excel (Pivot Tables, Charts)
 - **Database Management:** SQL, PostgreSQL
 - **Business & IT Process Improvement:** Process Optimization, Business Intelligence, SDLC
 - **Project Management:** Agile, PMP-trained, Cross-Functional Collaboration
 - **Tools & Platforms:** CasePeer, Slack, Nextiva, DocuSign, AbacusLaw, LexisNexis
-

PROJECTS

Stock Price Prediction & Market Risk Analysis

Tools & Technologies: Python, Scikit-Learn, TensorFlow (LSTM), Random Forest, Monte Carlo Simulation, SQL

- Developed an end-to-end stock price forecasting model using LSTM (deep learning) and Random Forest.
 - Engineered technical indicators (RSI, MACD, Moving Averages) to improve model accuracy.
 - Integrated sentiment analysis using TextBlob to assess financial news impact on stock prices.
 - Conducted Monte Carlo Simulations (1,000 iterations) to estimate stock price uncertainty with 95% confidence.
 - Implemented risk metrics (Sortino Ratio, Value at Risk, Max Drawdown) for decision-making.
 - Designed a rule-based trading strategy (BUY/SELL/HOLD signals) based on technical indicators.
 - Visualized stock trends and prediction accuracy using Matplotlib.
-

PROFESSIONAL EXPERIENCE

IT Project Manager and Implementation Manager

July 2024 - Present

Prestigious Health Services Inc.

- Led the adoption of Hospice MD (EMR system) to improve patient data management and workflow efficiency.
- Implemented Nextiva, DocuSign, Signal, and Hucu to enable HIPAA-compliant communication for nurses and staff.
- Designed assessment forms to streamline patient evaluations and optimize medical workflows.
- Managed vendor relations and coordinated between IT, healthcare professionals, and administrators.
- Provided technical support for laptops and IT infrastructure, ensuring operational continuity.

Litigation Legal Assistant

Jan 2024 - Jul 2024

Megeredchian Law

- Managed personal injury case files via CasePeer, contributing to over \$6M in settlements.
- Analyzed medical records, police reports, and billing statements to support case strategies.
- Automated report generation in CasePeer, improving case tracking efficiency.
- Streamlined secure data reception & organization to ensure 100% HIPAA compliance.

Legal Assistant
Law Offices of Jacob Emrani

Aug 2022 - Jan 2024

- Utilized AbacusLaw for case management and deadline tracking, ensuring legal compliance.
- Assisted in drafting demand letters that contributed to a \$4.5M settlement.
- Designed Excel-based tracking systems to monitor legal deadlines and case progress.
- Conducted data management and research using LexisNexis to strengthen case preparation.

Office & IT Manager
VSmile Dental (Maria Venus Obando DDS)

Jul 2019 - Aug 2022

- Led implementation of OpenDental, Rectangle Health, CareCredit, and PCIHIPAA, modernizing office workflows.
- Integrated Dentio X-ray systems to improve diagnostic efficiency.
- Conducted data-driven marketing analysis, driving 80% growth in patient engagement.
- Developed data security policies ensuring HIPAA compliance.

EDUCATION

Masters of Science in Information Systems Management (MSIS)

Stanton University, Anaheim, California

Nov 2023 to Present | Expected Graduation: 2026

Bachelors of Business Administration (BBA)

International American University, Los Angeles, California

Jan 2018 to Jan 2021

CERTIFICATIONS AND TRAININGS

- **Project Management Professional (PMP)** – In Progress (Aug 2024)
- **SQL & Data Analytics (PostgreSQL, FreeCodeCamp)** – Jan 2025
- **Responsive Web Design (FreeCodeCamp)** – Mar 2021
